FROM THE EDITOR:

Another great term coming up, with plenty to keep our brain cells active. As we settle well into the 21st century, I think our times will be known as the Age of Communication. Not only do our talks and discussion group thrive, but also our new course of Conversations has proved extremely stimulating. And now we are about to delve into the mysteries of electronic communication - to learn more about this exciting new course see page 3.

Most of our regular courses continue this term, each with a band of dedicated members. Our thanks go to those leaders who give of their time to keep these sessions running. I know that I for one, thoroughly enjoy doing so.

However, our committee is having some problems. Many of the members have now served for several years, and for various reasons are unable to continue. We strongly urge all of our members to consider, to paraphrase JFK, "Not what your club can do for you, but what you can do for your club". We meet for a couple of hours every 3 months, so it is not arduous. Come along as a general committee member, see how we operate, and have some say in how your club is run. Who knows, it could be fun.

FROM THE PRESIDENT:

Some people are social stars. They prefer to be in a crowd. They are vivacious, interesting, and immediately likeable. Others - including myself - are loners at heart. We are absorbed in our inner world, and prefer to be quiet, reading a book or listening to music.

But whether a social star or a loner, there is satisfaction to be gained from spending some time with a small group of friends, just as we do with our family. More so if the group of friends are working on a joint project, like mates getting together to build a gazebo. By sharing and co-operating with a small group of fellow human beings, we feel useful and deepen our friendships.

I've learned this, if I didn't know it already, over the last four years while serving on your Committee. So did Tom Marish, our past President, who said at last year's AGM that he had received more over the years from his membership of our U3A than he has contributed.

I have also learned that by being stretched a little, by being pushed towards the edge of my comfort zone, I can learn new competencies and expand my mental horizons.

This is my final column after three years as President, the maximum allowed by our Constitution. No-one on the current committee is willing to replace me, which means that we have no President next year unless someone new is willing to take on the job. At minimum, this means attending the five committee meetings, cobbling together four messages like this one, reading a speech at the AGM and leaving the rest to your fellow officers. Or if you choose, at maximum, spend a few hours a week helping to manage our U3A and create new directions.

We might perhaps just scrape by without having a President (but let's not risk it by testing the proposition). But unless someone steps forward to replace Gloria as our Talks organiser, we will see major changes next year. Perhaps there will only be two or three talks per term? We also need two new general Committee members.

If you might be willing to join our small group, and play a role to keep our U3A running, please speak to any member of the committee. There is unlikely to be any difficulty in finding someone to nominate you for a position! And be assured, like me you will gain from the experience!

*John Collis
President*

COURSE CO-ORDINATOR'S REPORT:

Once again my report is really a big 'thank-you' to all those members and visiting presenters who have agreed to give their time to Tuggerah Lakes U3A.

Again the range of topics which the presenters have for us is varied taking us from lots of fun to lots of thinking and some savvy shopping clues, and thoughts about our health in between.

The first of three presenters new to us is Betty Brown whose presentation will be of particular interest to our walking group as Betty will examine the coastline from Norah Head to Toowoan Bay and give us a possible scenario of how it may appear in the future.

On a completely different note, two speakers from Central Coast Medicare will talk about a new recording system for our health records that is now available. As we age Advance Care Planning is something of which we all need to have some idea, and this topic will be addressed in the second half of the presentation.

A topic dear to most women's hearts is shopping. Our third new presenter is Joy Tucker who, over two sessions will give us all the information we need to be able to buy on eBay. There is a small charge for literature Joy will hand out but if you know nothing, or a little, about this current method of shopping, all will be revealed.

Occasionally we read of some event and think, 'Oh yes, I remember when . . . ' and we recall some obscure character who for a very brief moment had the world, well, many folk, entranced for one reason or another. Margaret Bevege returns to remind us of some of those people who attracted '15 Minutes of Fame'.

Perhaps along the same line, Grahame Peak will discuss issues that may indeed have been famous but were also quite controversial, even as psychological experiments go.

Those of us who have heard Trish Skehan know that here we have a lady with an overwhelming amount of knowledge on her topic and who entrances her listeners as she presents the most lively and thorough examination of it. This time it is 'The Elgin Marbles'. Heard of them? Yes, of course but I guarantee you haven't heard what Trish will tell us.

And to finish the year, who better to be with us than Rodney Russell as we bounce along with him to music we all loved decades ago. What a great way to finish the year.

I do hope to see you, and maybe non-member friends, at some, no, all of these great Term 4 presentations.

Course Co-Ordinator*

**TABLETS BY THE LAKE**

At the recent talk on tablets given by Tommy Thomas, a number of members expressed an interest in learning more of the capabilities of either an iPad or Android tablet.

We have therefore arranged to conduct a course this coming term, at the Long Jetty Senior Citizens Centre (LJSC) in Thomson St, Long Jetty, using their facilities, which include WiFi access and a wide screen TV.

The class will be limited to 12 students, and they are expected to bring their tablet along. However, provision can be made for others to join the class, as observers.

Sessions will initially be based on Apple products with Android content to be added in later terms.

Members must be prepared to accept the following conditions:

- Enrol as a member of the LJSC, and pay the annual membership fee of \$5-50.
- Pay an amount of \$4-00 to LJSC, each session to cover cost of electricity and refreshments.
- Attend on certain Tuesdays between 9:30 and 11:30, from 8th October to 17th November, inclusive (except for 5th November).
- Provide U3A with a current email address, and agree that it may be made available to all other members of the class (only), for the circulation of information.

**WELFARE**

Cam Rhodes has been very ill and has spent three weeks in Wyong Hospital. He is now in Killarney Vale Nursing Home, 1 Daniel Close, Killarney Vale. He is fine mentally, but very frail physically. Visiting hours are from 11 a.m. to 4 p.m. and he would be happy to see anyone who cares to call in. Thank you to those members who have already been to see Cam - your thoughtfulness is much appreciated.

One of our former long time members, Pat Catley, has had a very difficult time recently; a car accident, hospitalization and arriving home finally to find that their home had been burgled!

In view of these traumas a card was sent to her on behalf of us all at U3ATL, with sincere best wishes for a return to good health and a happier future. Pat has replied, and asked me to pass on her thanks to those members in U3A who remembered her.

It remains for me to point out once again, how members who are sick, hospitalized or in any other way saddened really appreciate knowing that we take time to think of them and to send messages of encouragement.

**BEACHES, HEADLANDS AND LAKES: MONDAY**

Speaker: Betty Brown  
 Secretary: Gloria Watson (4332 7077)  
 Venue: diggers @ the entrance  
 Date: 21st Oct

Betty has been involved in land-care groups and beach and dune restoration for a number of years. Using a collection of maps, diagrams and photographs, she will present a possible scenario of how our coastline came to be like it is, and how it will probably appear in the future.

She examines how the impact of wind and water shape and reshape the coastline and show how the past and present have come together to form a unique coastal landform which is in a constant state of flux.

She will also give some answers to such questions as: "What is the future of Tuggerah Lakes? Will a break-wall solve all the Lakes problems? Why is there so much seagrass in the Lakes? Why do beaches change so rapidly". What are "rips" and why are they so dangerous?
